Subject: Strategaeth Genedlaethol ar gyfer Rheoli Perygl Llifogydd ac Erydu Arfordirol yng Nghymru / National Strategy for Flood and Coastal Erosion Risk Management in Wales

Annwyl Pawb,

Cyhoeddwyd y **Strategaeth Genedlaethol newydd ar gyfer Rheoli Perygl Llifogydd ac Erydu Arfordirol yng Nghymru** heddiw (dydd Mawrth 20 Hydref) gan Lesley Griffiths, sef Gweinidog yr Amgylchedd, Ynni a Materion Gwledig.

Mae'r Strategaeth newydd yn gam sylweddol i fyny yn ein dull o reoli perygl llifogydd ac erydu arfordirol. Mae'n llawer cliriach ar rolau a chyfrifoldebau ac yn nodi amcanion newydd ar atal, parodrwydd a chyfathrebu risg yn well.

Diolch i chi gyd am eich cyfraniad amhrisiadwy a chefnogaeth i baratoi'r Strategaeth a hefyd drwy'r cyfnod ymgynghori, sydd wedi helpu cryfhau'r ddogfen a dull hir dymor o reoli'r risg ac i addasu i newid hinsawdd.

Cofion
Tim Rheoli Perygl Llifogydd ac Erydu Arfordirol

Dear All,

The new **National Strategy for Flood and Coastal Erosion Risk Management in Wales** was announced by Lesley Griffiths, the Minister for Environment, Energy and Rural Affairs, today (Tuesday, October 20).

The new Strategy is a significant step-up in our approach to managing flood and coastal erosion risk. It is far clearer on roles and responsibilities and sets out new objectives on prevention, preparedness and better communication of risk.

Thank you all for your invaluable contributions and support in preparing the Strategy and throughout consultation, which has helped strengthen the document and our long-term approach to managing risk and adapting to climate change.

Regards
Flood and Coastal Risk Management Team
